

# West Nile Virus

Anything that will  
hold water for more  
than a few days can  
breed mosquitoes!

## Protect yourself and your family.

### Eliminate all sources of standing water !

# WEST NILE VIRUS

To Report A Dead Bird Or Squirrel

**1-877-WNV-BIRD**

For more information on mosquitoes and West Nile virus please contact:  
San Mateo County Mosquito Abatement District  
(650)344-8592  
visit us online at [www.smcmad.org](http://www.smcmad.org)  
To report a bird or squirrel online:  
[www.westnile.ca.gov](http://www.westnile.ca.gov)

Dead squirrels and birds can be an indication of West Nile virus. Mosquitoes can pick up the virus from these animals and transmit it to humans. Public reports of dead squirrels or birds are used by the San Mateo County Mosquito Abatement District to target surveillance and control efforts. To report a dead squirrel or bird, call the West Nile virus hotline: (877) WNV-BIRD
